North Warwickshire and South Leicestershire College (NWSLC)

International Holocaust Remembrance Alliance (IHRA) definition of antisemitism

North Warwickshire and South Leicestershire College has adopted the IHRA definition of antisemitism.

We will use this definition, alongside our College policies and procedures, to tackle any instance of anti-Semitism and to inform our work with all students to advance our core values of tolerance and inclusivity.

North Warwickshire and South Leicestershire College take the issue of antisemitism very seriously, and considers antisemitism to be a form of racism, as provided for in the Equality Act 2010. As such, any hatred or harassment linked to ethnicity or religion and belief is taken extremely seriously by the College and is dealt with appropriately in line with our relevant policies.

North Warwickshire and South Leicestershire College set Equality Objectives that reflect the diversity and changing needs of our communities. We will measure ourselves against these objectives within our formal self-assessment process. By doing this we aim to demonstrate how we:

- Eliminate unlawful discrimination, harassment and victimisation.
- Advance equality of opportunity.
- Foster good relations between all people.
