

Course Information

HND Computing and Systems Development UCAS Code I102

LEVEL 5	COURSE AREA Higher Education	CAMPUS Wigston	COURSE CODE G5066
-------------------	--	--------------------------	-----------------------------

ABOUT

All organisations rely on smart, efficient and smooth-running IT systems. Websites and databases constantly need building, maintaining and improving. Careers in computing and systems development span from software engineer to web developer and from IT support technician to database analyst. The HND Computing and Systems Development will give you the skills to become a developer working with Java or PHP or managing operating systems such as Apple's iOS. You will gain practical skills in programming, web design, IT support and systems analysis that could be your springboard into an exciting career with local, national or international companies.
