

# Course Information

## HND Creative Media Production (Games Development) UCAS Code P310

LEVEL	COURSE AREA	CAMPUS	COURSE CODE
5	Higher Education	Hinckley	U0367

### ABOUT

The UK computer games sector is on an upward trend, set to be worth over £5BN by 2021. With the accessibility of gaming via mobile devices increasing its popularity, around half the UK population plays regularly. You may have an ambition to devise and develop the next League of Legends or Minecraft, but jobs within the gaming sector also extend to design and artwork, as well as technical roles working on middleware, virtual machines and customisable games engines. The HND in Games Development will take you through all the stages of game development from initial idea to final release. You will learn about 3D modelling and human-computer interfaces and even get the chance to see your ideas come to life using our HTC Vive virtual reality kit.
